Talented Student with a Passion for Computer Science
As a student, I am passionate about all things computer science. My expertise includes full stack web development, using MERN Stack technology. Additionally, I possess strong problem-solving skills and am a quick learner.

Projects

Dshop [Live]
- Dshop: An E-commerce Project Built with MERN Stack Technology
- Dshop is an e-commerce project that was created for self-learning purposes. It was built using MERN stack technology and boasts a range of features, including an admin panel, Razorpay payment gateway, login/sign-up functionalities, add-to-cart feature, filter product feature, and much more.

Chat App [Live]
- Developed a Chat Application with MERN Stack Technology
- To enhance my web socket knowledge, I have build a chat app that includes several features such as one-on-one chat, login/signup, and more.

Tic Tac Toe Game [Live]
- To strengthen my core Javascript skills, I developed a Tic Tac Toe game.

Notes App [Live]
- Developed a notes app using HTML, CSS, and JavaScript, gaining knowledge of local storage in the process.
